SUMMARY

Frontend Developer with hands-on experience in building scalable web applications using React and TypeScript. Expert in creating responsive user interfaces, managing complex application states with Redux Toolkit, and ensuring high code quality through Jest and Cypress testing. Highly proficient in modern JavaScript (ES6+) and CSS architectures (Sass/SCSS, BEM). Upper-Intermediate English speaker with strong problem-solving abilities and a track record of 158+ solved katas on CodeWars.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Basic C/C++/C#

Frontend: React, Redux Toolkit, HTML5, CSS3, Sass (SCSS), BEM, Material UI, Tailwind CSS

Backend & DB: Node.js, Express, SQL, PostgreSQL, Sequelize

Tools: Git (Git Flow), Vite, Webpack, Babel, Docker, ESLint, Prettier

Testing: Unit Testing (Jest), End-to-End Testing (Cypress)

Other: REST API, WebSockets, OOP, Agile (Scrum, Kanban)

PROFESSIONAL EXPERIENCE

Frontend Developer

03/2023 – 03/2024 | Remote

- **Application Development:** Developed and maintained functional web applications using React and TypeScript, ensuring high performance and scalability.
- **State Management:** Architected complex state management logic with Redux Toolkit to ensure seamless and predictable data flow.
- **UI/UX Implementation:** Converted high-fidelity Figma mockups into responsive, cross-browser compatible layouts using SCSS and Material UI.
- **API Integration:** Integrated RESTful APIs for dynamic data fetching and handled complex asynchronous operations.
- **Performance Optimization:** Optimized application load times through code-splitting, lazy loading, and efficient component architecture.
- **Testing & Quality Assurance:** Authored unit and E2E tests using Jest and Cypress to maintain a robust and bug-free codebase.
- **Collaboration:** Followed Git Flow methodology and participated in code reviews to maintain industry-standard code quality.

EDUCATION & CERTIFICATIONS

Mate Academy, *Frontend Development Course*

Remote

- Intensive training covering Modern JS, TypeScript, React, and Software Development Lifecycle.

★ ACHIEVEMENTS

CodeWars

- 158+ Katas Solved on CodeWars, demonstrating strong algorithmic thinking.

Project Delivery

- Successfully delivered 4+ full-scale frontend projects.
- Developed interactive features (e-commerce flows, API integrations) from scratch.

PROJECTS

React Phone Catalog, [Demo](#) / [GitHub](#)

- Built a comprehensive e-commerce platform with advanced search, filtering, and pagination.
- Implemented a shopping cart and favorites system using Redux Toolkit.

2048 Game, [Demo](#) / [GitHub](#)

- Developed a logic-based browser game using ES6+.
- Implemented tile-merging algorithms and state-tracking for high scores.

MyBike Rental, [Demo](#) | [GitHub](#)

- Created a fully responsive landing page with a focus on semantic HTML5 and reusable SCSS modules.
